4/ Other footage, also posted on 30 Nov. 2023 shows spray paint, reportedly on the centers walls.

I wasn't able to conclusively find an exact match, but the equipment and interior match other footage of the center.

The Israeli military is using the Noura Kaabi Dialysis Hospital in the Jabalia Refugee Camp as a military base and operational center amid the ongoing invasion. This is the second hospital that they hide behind, following Tika Hospital in Netzarim.

7/ A video, posted more recently by @trackingisrael (but older) shows what appears to be an Israeli soldier (allegedly Golani Brigade) urinating from a window in the Indonesian Hospital opposite Noura Al-Kaabi Kidney Dialysis Center.
