Geolocation #267: Aid Distribution Bases Operational

Israeli Military announced that 2 out of 4 aid distribution bases started operating, with photos and videos now available proving that Palestinians started receiving the aid en masse.

This announcement came after slight hints and photos surfaced on Sunday May 25 about civilians receiving the very first packages, but in very limited numbers.

This aid distribution system is feared to push Palestinians to move closer to the bases from Central and North Gaza, and also put Palestinians on the verge of 'smooth' and 'silence' permeant displacement outside Gaza, which triggered international calls to work towards Palestinian state solution. Those calls were denounced by Israel.

Recent satellite imageries and geolocations showed these bases (3) in Rafah, and the fourth being in Al Bureij (pointed out in the pic) which local sources mentioned is getting ready for operation.

Notice (in thread animated image) the cleared area at

Which might become a checkpoint to make sure people enter the base road and no one goes past towards the Saudi neighborhood and Tal Al Sultan.

This thread pointed out the location of this very base which is the largest one in Rafah. Notice that Hamad Hospital is utilized as military base and can also be used to secure the aid base with the Swedish Village that was razed and converted to military base since Rafah ground invasion in 2024 summer.

#عاجل في إطار المبادرة الأمريكية: إنجاز إنشاء مجمعات التوزيع التي يتم تفعيلها من قبل منظمات الإغاثة الدولية بحماية شركة التأمين الأمريكية المدنية في قطاع غزة

بناءً على توجيهات المستوى السياسي بالتنسيق الوطيد مع الولايات المتحدة الأمريكية وفي إطار مجهود إدخال المساعدات الإنسانية إلى قطاع غزة، تم خلال الأسابيع الأخيرة إنجاز إنشاء مجمعات التوزيع الأربعة التي يتم تفعيلها من قبل منظمات الإغاثة الدولية بحماية شركة التأمين الأمريكية المدنية في قطاع غزة.

في إطار الافتتاح التدريجي لمجمعات التوزيع بدأ اليوم (الثلاثاء) مجمعا توزيع بالعمل، وذلك في منطقة تل السلطان ومحور "موراج" برفح، بهدف توزيع طرود المواد الغذائية لآلاف العائلات في القطاع.

سيواصل جيش الدفاع إتاحة الاستجابة الإنسانية لأهالي قطاع غزة مع بذل قصارى الجهود المطلوبة لضمان عدم وقوع المساعدات الإنسانية في أيدي عناصر حركة حماس الإرهابية.

#عاجل Within the framework of the American initiative: Completion of the establishment of distribution complexes that are operated by international relief organizations under the protection of the American Civil Insurance Company in the Gaza Strip.

Based on the directives of the political level, in close coordination with the United States of America, and within the framework of the effort to bring humanitarian aid into the Gaza Strip, the establishment of the four distribution complexes was completed in recent weeks, which are operated by international relief organizations under the protection of the American Civilian Insurance Company in the Gaza Strip.

As part of the gradual opening of distribution complexes, two distribution complexes began operating today (Tuesday) in the Tel al-Sultan area and the Morag axis in Rafah, with the aim of distributing food parcels to thousands of families in the Strip.

The IDF will continue to provide humanitarian assistance to the residents of the Gaza Strip while making every effort to ensure that humanitarian aid does not fall into the hands of Hamas terrorist elements.

Humanitarian zone sign hung on the fallen minaret of a destroyed mosque. This is most likely 'Al Ribat Mosque' as this is the only mosque on the way to the base following 'Abu Baker Al Seddeq' road in Mawasi Rafah, also minaret shape in the imagery is similar to the photo.

Interestingly, the contractor is speaking in Gulf Arabic accent (Khaleeji).
